

## Stainless Steel Lift Bails

HOMA is pleased to offer our Stainless Steel Lifting Bail option for A Series Pumps. The design of these bails was aided by the input from a number of pump users and field service people. They are available for pumps from 3HP to 650HP. Shown to the right are the designs for pumps up to 214 HP. The larger motor design (not shown) also incorporates cable holders for the power and control cables.

**Features:**

- **Permits easy handling of pumps**
- **Tall design does not interfere with power cables**
- **Upright, Open Access design is easy to “hook” if lift chain is lost.**
- **Eliminate sling or chain loop from tangling in cables**
- **Will not corrode if unsubmerged in sump.**
- **All Stainless Steel Construction with Stainless Steel Hardware**
- **Heavy Duty, minimum ¼” thick bar won’t twist or bend.**

**Available from stock for all A Series pumps as follows**

|                |                       |                         |
|----------------|-----------------------|-------------------------|
