

HOMA is pleased to offer our stainless steel lifting bail option for A Series pumps. The design of these bails was aided by the input from a number of pump users and field service people. They are available for pumps from 3HP to 500HP.

- » Permits easy handling of pumps
- » Tall design does not interfere with power cables
- » Upright, open access design is easy to “hook” if lift chain is lost.
- » Eliminate sling or chain loop from tangling in cables
- » Will not corrode if unsubmerged in sump.
- » All stainless steel construction with stainless steel hardware
- » Heavy duty, minimum ¼” thick bar won’t twist or bend.
- » Available in flat (above right) or round (bottom right) construction

Designs for handles up to 214 HP. Larger designs (not shown) also incorporate cable holders for the power and control cables.

Flat Stock	Round Stock	Motor Frame Size	Motor Horsepower
8734106	N/A	D Frame Motors	2 HP to 7 HP
8734128	8734102	T Frame Motors	2.9 HP to 10 HP
8734110	8734111	P Frame Motors	13 HP to 29 HP
8734112	8734113	F Frame Motors	30 HP to 53 HP
8734114	8734274	G Frame Motors	56 HP to 121 HP
8734116	8734284	H Frame Motors	100 HP to 214 HP
