

For severe applications HOMA offers our complete line of stainless steel Autocoupling discharge connection systems.

Our stainless steel Autocoupling systems are compatible with both our C Series of stainless steel pumps, as well as our standard cast iron series of non-clog, effluent, and grinder pumps.

- » Available in sizes from 2" threaded, to 6" flanged
- » Complete 316SS castings
- » All assemblies come with stainless steel anchor bolts and stainless steel upper guide rail brackets
- » Stainless steel intermediate guide rail brackets optionally available
