

HOMA is pleased to offer our stainless steel lifting bail option for A Series pumps. The design of these bails was aided by the input from a number of pump users and field service people. They are available for pumps from 3HP to 500HP.

- » Permits easy handling of pumps
- » Tall design does not interfere with power cables
- » Upright, open access design is easy to “hook” if lift chain is lost.
- » Eliminate sling or chain loop from tangling in cables
- » Will not corrode if unsubmerged in sump.
- » All stainless steel construction with stainless steel hardware
- » Heavy duty, minimum ¼” thick bar won’t twist or bend.

Designs for pump handles up to 214 HP. Larger designs (not shown) also incorporate cable holders for the power and control cables.

<u>Part Number</u>	<u>Motor Frame Size</u>	<u>Motor Horsepower</u>
8734106	D Frame Motors	2 HP to 7 HP
8734128	T Frame Motors	2.9 HP to 10 HP
8734110	P Frame Motors	13 HP to 29 HP
8734112	F Frame Motors	30 HP to 53 HP
8734114	G Frame Motors	56 HP to 121 HP
8734116	H Frame Motors	100 HP to 214 HP
